

*We represent 1,400 Registered Nurses and Nurse Practitioners working in acute care, long term care, community care, mental health and addictions. Since 1974 we have negotiated, administered and improved the Collective Agreement for the benefit of our workplaces and Prince Edward Island's health care.*

*The Prince Edward Island Nurses' Union is a strong, credible and respected voice for Registered Nurses and Nurse Practitioners and quality health care in our province. We are a member of the Canadian Federation of Nurses' Unions (CFNU), and thereby affiliated with the Canadian labor Congress (CLC).*
