OUR STORY

B&D was founded in 2005 by Dan Sugulas. After spending a decade in the Houston construction industry, Dan had a deep desire to offer a multidisciplinary landscape construction solution. Dan identified the problems that resulted from hiring several different sub-contractors to complete the landscape construction scope. Through the vision of Dan, the seed was planted for B&D Landscape Contractors, a one-stop shop for commercial landscape construction.

B&D Landscape Contractors is Houston-based, multi-disciplined commercial landscape contractor with the confidence, talent and enthusiasm to do whatever it takes to craft a quality outdoor solution to meet your needs.
